

Tastes good. Good for you.

The Juice

Ocean Spray has a fresh new figure... with the same great taste

Ocean Spray will have a brand new look when the bottles hit the shelves in November!

Ocean Spray has conducted extensive research into what would make the perfect bottle and found that in the eyes of our customer, rectangular beats round.

The new rectangular bottle is easier to grip than the previous round bottle, allowing you to pour your favourite Ocean Spray drink with just one hand.

The new bottle will also fit easily into most fridge doors, meaning Ocean Spray will fit snugly next

to the other drinks in the fridge, because as you know, Ocean Spray juice drinks are best enjoyed ice cold. And being rectangular means that you can also store the bottles easily in your pantry.

Ocean Spray's new look is on the outside only; you can still expect the same crisp, refreshing Ocean Spray taste you love in every bottle. Now, it will simply be easier to store, pour and enjoy!
